

30 September 2024

Dear Parent/ Carer

Sparx Science

We are excited to let you know that we have partnered with Sparx to start using their new science homework platform, Sparx Science. From Monday 30 September your child will be using Sparx Science to complete weekly homework.

Your child's homework will be set on Mondays 7am and due on Sundays 11pm every week.

Sparx Science helps every student to achieve success in science.

How do they log in?

- Students log in at sparxscience.com. They will need to find their school and log in using their Sparx Science details.

What devices are supported?

- Your child can access Sparx Science on any device that connects to the internet with a web browser.

How can I support my child with their homework?

- Sparx Science adapts to each student's ability level, so it's important that you **do not** help too much, e.g. by answering questions for them. This can lead to Sparx giving homework that is too long or hard in future.
- We recommend letting students answer each question themselves and you can give help if they are stuck with the support and follow-up questions.
- You can also help to provide a quiet space for your child to focus on their homework each week.

How can I monitor my child's homework?

- You are able to keep track of the homework your child is doing by clicking through the link to the Parent Portal in your Sparx Science weekly homework email.
- On the Parent Portal, you can choose to view homework progress for any Sparx learning system your child is using.

What support is available at Stanground academy?

- Curriculum Lead – smohammad@stangroundacademy.org
- Science staff – please contact your child's teacher.
- Students can do their homework at school - e.g. library

If you have any questions, please contact the Science team.

Yours faithfully

S Mohammad
Assistant Principal - Science
